

TRICARE DENTAL PROGRAM

For Family Members Enrolled in UCCI

The TRICARE Dental Program (TDP) is offered by the Department of Defense through the TRICARE Management Activity and administered by United Concordia Company Inc. (UCCI). The TDP offers a high quality, cost-effective dental care benefit for family members of all active duty personnel, and Selected Reserve, Individual Ready Reserve (IRR) members and/or their families. Enrollment in TRICARE Prime or Standard does not include dental. TDP coverage is available globally.

Enrollment: The sponsor must have at least 12 months remaining (or have the intent to remain) on his or her service commitment at the time of enrollment. UCCI verifies member eligibility from DEERS. Enrollment may be completed by:

- Submitting a completed application and credit card data online at www.ucci.com
- Completing the downloaded form and faxing w/credit card data to (888) 734-1944
- Mailing a completed form and check to the address on the form

All new enrollees must submit one month's premium payment with the enrollment form. New beneficiaries will receive a TDP Benefit Booklet from UCCI. Enrollment may be through a single or family plan. The family plan will include all family members, with the possible exception of children under the age of 4 and children not residing with the sponsor.

Premiums : Determined by enrollee category, Active or Reserve, and number of persons enrolling. Premiums for active duty personnel are paid in advance by payroll deduction. Reservists may pay by direct billing. Contact UCCI for current premium costs.

Covered Services: The dental benefit year is 1 Feb to 31 January. Unused benefits cannot be carried forward or transferred to anyone else. The annual maximum benefit is \$1200 per enrolled family member for all services excluding orthodontics. The lifetime maximum orthodontic benefit is \$1500. The percentage paid by UCCI and the member's cost share depend upon the type of service received. In OCONUS locations, the government will pay the member's cost shares for all services except "orthodontics", "prosthodontics" and "other restorative services". These services will incur a 50% cost share that must be paid directly to the dentist. There are a number of non-covered services, such as implants, TMD treatment and strictly cosmetic procedures. See the TDP Benefit Booklet for specific details.

Participating Dentists : The TRICARE Pacific Lead Agency (TPLA) and military Dental Treatment Facility (DTF) commanders are responsible for developing lists of OCONUS TRICARE dentists. A list for most locations is available from the medical POC, TRICARE Health Benefits Advisor, military dental clinic or TPLA. Depending upon location and procedure, use of these listed providers is either required or recommended.
